“

With 6 years of experience in Android Development, I possess a strong background and knowledge of the platform. I have collaborated with both small businesses and large corporations on Android mobile app projects. My experience includes working on projects designed to assist with a wide range of functionalities, from social media feeds to delivery applications. I am adept at translating clients' instructions into tailored solutions to meet their specific needs.

WORK EXPERIENCE

ANDROID DEVELOPER

Solo Technology Sevices LLC | Apr 2019 - July 2022

- Played a crucial role within a remote team of developers, specializing in the creation of delivery apps for renowned restaurant and fast-food chains in Saudi Arabia.
- Led the development and continuous maintenance of the Android platform for a prominent delivery app, namely "Kudu."
- Provided invaluable support in the ongoing development and upkeep of several in-house apps, including those for Burger King, Hamburgini, and more.
- Demonstrated expertise in various Android technologies such as Dagger, LiveData, and Crashlytics, enhancing the overall performance and functionality of these apps.
- Maintained a strong commitment to quality by producing comprehensive unit tests and UI tests using tools like JUnit and Espresso, ensuring the reliability and resilience of the applications.

MOBILE DEVELOPER

mClinica Health Solution Inc | Jan 2017 - Mar 2019

- Collaborated as a key member of a dynamic developer team that specialized in crafting pharmaceutical apps tailored for the Southeast Asian market.
- Spearheaded the development and continuous maintenance of the Android platform for a pioneering social media app dedicated to pharmacists, known as "SwipeRx."
- Demonstrated proficiency in a diverse array of Android technologies, such as MVVM, RxJava, and Retrofit, contributing to the enhanced performance and functionality of these applications.
- Upheld a commitment to quality by creating comprehensive unit tests and UI tests utilizing industry-standard tools like JUnit and Espresso, ensuring the robustness of the apps.
- Assuming a multifaceted role, I also took on responsibilities as a UI/UX designer, contributing to the creation of mobile mockups using AdobeXD and Figma, thus enriching the overall user experience and design aesthetics.

SOFTWARE DEVELOPER

A-FIS LAB PH INC | April 2016 - July 2016

- Collaborated as a vital team member in the development of web applications with a primary emphasis on user analytics.
- Leveraged a diverse set of web technologies, including NodeJS, ReactJS, Ruby, and more, to build sophisticated solutions.

# DEN REYES / mobile applications developer

## PROJECT EXPERIENCE

### KUDU DELIVERY

Skyline Dynamics | Apr 2019 - July 2022

- Contributed to the development of a food delivery app for Kudu Saudi Arabia, leveraging the MVP Architecture.
- Utilized advanced Android technologies including Dagger, LiveData, and Crashlytics.
- Implemented key features such as menu selection, promotions, and delivery tracking for an enhanced user experience.

### BURGER KING SA

Skyline Dynamics | Apr 2019 - July 2022

- Contributed to the development of a food delivery app for Burger King in Saudi Arabia, utilizing the MVP Architecture.
- Employed cutting-edge Android technologies, including Dagger, LiveData, and Crashlytics.
- Incorporated essential features like menu selection, promotions, and delivery tracking to enhance user experience.

### SWIPERX

mClinica Health Solution Inc | Jan 2017 - Mar 2019

- Contributed to the development of a social media app tailored for pharmacists, integrating Android technologies like MVVM, RxJava, Retrofit, Glide, and more.
- Implemented a comprehensive suite of features, including social media feed, chat functionality, drug database access, a job board, and certification exam support, providing a robust and engaging user experience.

### BACKDROP

Udacity Android Nanodegree | Oct 2015 - Jan 2016

- Developed a Spotify streaming app seamlessly integrating the Spotify SDK and SoundCloud API, enhanced by an ambient sound generator.
- Created a unique music experience by combining these powerful platforms, offering users a distinctive and versatile streaming application.

## EDUCATION

### GAME PROGRAMMING

Centennial College | Sept 2022 - July 2025

### BACHELOR IN SCIENCE IN INFORMATION TECHNOLOGY

University of San Jose - Recoletos | 2012 - 2016

Graduated with honors

Majored in Mobile Development

## SKILLS
